RE: Shearer Hills Subdivision POADP #447

Mr. Cervantes:

The City Staff Development Review Committee has reviewed your Shearer Hills Subdivision Preliminary Overall Area Development Plan #447. Please find enclosed a signed copy for your files. You may now submit individual subdivision plat units at your convenience. Additionally, the Traffic Planning Engineer has indicated that the sixty-foot street will require forty-four feet of pavement at the time of construction.

Please note that this action by the committee does not establish any commitment for the provision of utilities, services or zoning of any type now or in the future by the City of San Antonio. Additionally, this action does not confer any vested rights to plat under the existing Subdivision regulations. Any platting will have to comply with the Unified Development Code at the time of plat submittal.

If you have any additional questions or comments regarding this matter, please contact Alex Garcia. He may be reached at (210)299-7900, Monday through Friday, 7:45AM-4:30PM.

Sincerely,

A handwritten signature in cursive script, appearing to read "D. Pasley".

Re: Marbach Park Preliminary Plan
 P.O.A.D.P.
File #: 85-11-57-04

The above has been reviewed by Planning and Traffic staff and it has been determined that it:

- () is in general compliance with the Subdivision Regulations
- (X) lacks compliance with the Subdivision Regulations regarding:
 - () Street layout
 - () Relation to adjoining street system
 - () Stub streets
 - () Street jogs or intersections
 - (X) Dead-end streets
 - () Cul-de-sac streets in excess of 500'
 - () Low density lots fronting onto major thoroughfares
 - () 24' alley(s)
 - (X) Requires a 5' vehicular non access easement as per attached plan.
- () See annotations/comments on attached copy of your plan.
- (X) Comments: (See comment attached)

Please note that these are staff comments and not Planning Commission comments. This action does not establish any commitment for the provision of utilities or services of any type now or in the future by the City of San Antonio. Additionally, this action does not confer any vested rights to plat under the existing Subdivision Regulations. Any platting will have to comply with the Subdivision Regulations in force at the time of platting.

Michael C. O'Neal
Planning Administrator

The POADP Committee has reviewed your proposed plan for Marbach Park. The consensus of the committee is that your proposal to link a public street to a private street is not acceptable and is not in the best interest of the City. Final analysis by the Traffic Engineer and the City engineer is that the dead-end street be terminated with a P-shape cul-de-sac and provide a 5' vehicular non-access easement. (See attached).

Staff would suggest that you meet with the Traffic Engineer to resolve the matter and perhaps agree on some alternative proposals. In any event, the plan as submitted will be held in obedience until a revised plan which meets the requirements as mentioned above is submitted to the Committee for further review or an alternative plan is submitted for re-review.

If you have any questions regarding this matter, please contact our Subdivision Section at 299-7900.
