RE: Encino Park POADP (N.P.C.)  
File #85-18-65-26

Dear Mr. Pacheco:

The POADP Committee has reviewed your Encino Park Plan. Acceptance of the plan is conditioned upon your acknowledgement of the following committee comments.

Bulverde Road is on the Major Thoroughfare Plan for 110' R.O.W., and proper dedication will be required upon formal plat filing. Please amend your plan to reflect the current ROW width and show the proper dedication. In addition, the committee is concerned with the proposed 50' local type "A" cul-de-sac street access, onto Evans Road. The committee recommends that the street entry be provided through Caliza or to the interior of adjacent Unit-2 (see attached plan).

Please note that this action by the Committee does not confer any vested rights to plat under the existing Subdivision Regulations. Any platting will have to comply with the Subdivision Regulations in force at the time of platting.

If you have any questions, please call Roy Ramos at 299-7896.

Sincerely,

A handwritten signature in cursive script that reads 'McNeal'.

Re: POADP Applications Status  
 Follow-up

Dear Mr. O'Neal:

Pursuant to a conversation I had with Roy Ramos Wednesday, April 6, 1988, and a conversation on, or about, March 23, 1988 by David Segovia with my secretary, Donna Doughtie, this letter is to confirm further information derived regarding the above referenced matter. David Segovia supplied us with Pape-Dawson Job Numbers on those maps which were still unidentified at the writing of our March 18, 1988 letter to you. We were able to identify the maps with our Job Numbers and obtain further status information. Listed below are the maps designated as POADP's having been applied for by Pape-Dawson and their status, to the best of our knowledge. They are broken into three categories; (a) those which are platted or partially platted, (b) those which are not platted, but are active, (c) those not platted by Pape-Dawson, whose status we do not know, but which could have been platted by another firm:

\* These may have been platted by another firm. We have no knowledge of their current status. Please contact developer before deleting.

\*\* Pace-Picante may have been platted by Vickrey and Associates.

We understand that you will retain all POADP's on which platting has occurred, and that you will also retain those known to be active. Further, on those that are "Unknown," we request that, prior to removing any POADP, you notify the Owner of the property, since in some cases, we may not be aware of the Owner's plans.

We trust this information completes the list of status information the Planning Department needed, and regret that it has taken so long and been so confusing to obtain. If you need further information or have questions, please contact me.

Sincerely,

RE: Encino Park POADP (NPC)  
File #85-18-65-26

Dear Mr. O'Neal:

Attached are revised prints indicating dedication as requested. The 50-foot local type "A" cul-de-sac street with access onto Evans Road is to be able to drain this street onto Evans Road. Providing entry to this cul-de-sac from the interior street in the adjacent Unit-2 or from Caliza Drive would create drainage problems.

Should additional information be required, please call our office.

Very truly yours,
