Re: Marshall Ranch

POADP # 624

Dear Mr. Brown:

The City Staff Development Review Committee has reviewed Marshall Ranch Subdivision Preliminary Overall Area Development Plan # 624. Please find enclosed a signed copy for your files. Although your plan was accepted, please note the following:

- Based on the topography, a Flood Plain Study and drainage review will probably be required during the platting process.
- In consideration of public safety and convenience, excessive grades by reason of topography should be avoided in street layouts and arrangements.
- This development will probably need to conform to requirements associated with development over the Edwards Aquifer. For additional information about these requirements you can contact SAWS at 704-7305.
- Access and R.O.W. issues along State facilities will need to be resolved with the Texas Department of Transportation (TXDOT). For information about these requirements you can contact TXDOT at 615-5814.
- This development will need to comply with tree preservation ordinance #85262. For information about these requirements you can contact Building Inspections at 207-7102.
- It will be expected that you will plat all of the property depicted in your POADP, to include: floodpains, drainage areas and open space.
- I would encourage you to work closely with the school district, so that they can plan accordingly.

Please note that this action by the committee does not establish any commitment for the provision of utilities, services or zoning of any type now or in the future by the City of San Antonio. If the proposed development is not platted in phases this POADP will be invalid. Platting will have to comply with the UDC.

If you have any questions or comments regarding this matter, please contact Ms. Elizabeth Carol, at (210) 207-7900.

Sincerely,

Emil R. Moncivais AIA, AICP
Director of Planning

EM/EAC
