- ✓ name of the POADP and the subdivision;
- ✓ indication of development phases on the POADP;
- ✓ perimeter property lines of the POADP (in a line weight and character distinguishable from other lines);
- ✓ north arrow and scale of the map;
- ✓ proposed land use by location, type and acreage;
- ✓ delineation of the circulation system including all collectors, arterial, and local type "B" streets;
- ✓ contour lines at intervals no greater than ten (10) feet;
- ✓ legal recorded ownership of adjacent properties and if known proposed development of adjacent unimproved properties;
- ✓ existing adjacent or perimeter streets;
- ✓ one hundred year flood plain limits;
- ✓ location map indicating location and distance of the POADP to adjacent streets and at least two (2) major thoroughfares.
- ✓ a complete application and certification with six copies of the POADP map, all maps to be folded (accordion style & manageable size);
- ✓ POADP amendments or revisions must be graphically indicated and include a concise statement describing said amendment or revision on the POADP map;
- ✓ TIA requirements must be met prior to acceptance of a POADP, contact Amer Galani @ (210)207-2076;
- ✓ the POADP does does not abut State Highway Department facilities and one additional copy of the POADP plan has been submitted directly to TXDOT for their review. Contact Judy Friesenhahn @ (210) 615-5814;
- ✓ The POADP is is not located over the Edwards Aquifer recharge zone and one additional copy of the POADP has been submitted directly to the Aquifer Studies office of San Antonio Water Systems, contact Kirk Nixon (210) 704-7392;

I certify that the POADP application and accompanying maps are complete and that the conditions listed on this application have been met.

Re: Valley High Springs

POADP # 648

Dear Mr. Hanan,

The City Staff Development Review Committee has reviewed Valley High Springs Preliminary Overall Area Development Plan # 648. Please find enclosed a signed copy for your files. Although your plan was accepted, please note the following:

- Based on the topography, a Flood Plain Study and drainage review will probably be required during the platting process.
- In consideration of public safety and convenience, excessive grades by reason of topography should be avoided in street layouts and arrangements.
- Access and R.O.W. issues along State facilities will need to be resolved with the Texas Department of Transportation (TXDOT). For information about these requirements you can contact TXDOT at 615-5814.
- This development will need to comply with tree preservation ordinance #85262. For information about these requirements you can contact Building Inspections at 207-7102.
- It will be expected that you will plat all of the property depicted in your POADP, to include: floodpains, drainage areas and open space.
- I would encourage you to work closely with the school district, so that they can plan accordingly.
- Springvale Drive will require 60' of right-of-way at the time of platting.

Please note that this action by the committee does not establish any commitment for the provision of utilities, services or zoning of any type now or in the future by the City of San

Antonio. If the proposed development is not platted in phases this POADP will be invalid. Platting will have to comply with the UDC.

If you have any questions or comments regarding this matter, please contact Ms.J. Jay, at (210) 207-7900.

Sincerely,

Emil R. Moncivais AIA, AICP
Director of Planning
