Re: Mission Creek (Amendment)

(TIF) MDP# 736-B

Dear Mr. Briones,

The City Staff Development Review Committee has reviewed the Mission Creek Development Plan (MDP) # 736-B (Amendment). Please find enclosed a signed copy for your files. Although your plan was accepted, please note the following:

- In consideration of public safety and convenience, excessive grades by reason of topography should be avoided in street layouts and arrangements.
- Access and R.O.W. issues along State facilities will need to be resolved with the Texas Department of Transportation (TXDOT). For information about these requirements you can contact TXDOT at 615-5814.
- As part of their conditional approval the City of San Antonio Development Services Engineering Section has received your comments in reference to the Mission Creek Subdivision. The following recommendations have been placed on the adjacent roadways for this proposed project and are required by TxDOT. The following issues are of major concern for the City of San Antonio and Texas Department of Transportation (TxDOT) due to the roadway classification and high speed on US 181 South:
 1. Right-turn deceleration lanes are necessary and shall be placed at all access points on US 181 South as per standards provided by TxDOT.
 2. Left-turn lanes should be placed at all access points on US 181 South as per standards provided by TxDOT.
 3. Access to Spur 122 (South Presa) should be limited to collector streets with a minimum entrance throat depth of 200 feet before any driveway is allowed within the subdivision. Access to the multi-family should be only allowed within the subdivision as illustrated on the original MDP approved by this office.
 4. Old Corpus Christi road should be improved with this development.

- As part of their conditional approval the Parks and Recreation Department has cited the following will have to be met prior to any final plat approval:

1. Inclusion of \$218,000.00 for park improvements:
 - a. Access path with low water crossing \$30,000.00
 - b. Playground Area 105,000.00
 - c. Ball field 26,000.00
 - d. Landscaping 23,000.00
 - e. Parking Lot 22,000.00
 - f. Picnic Units 12,000.00

2. All planning, designs, and construction of park improvements within the 12.17-acre park must be coordinated with and approved by the Parks and Recreation Department, Park Project Services Division.

3. Park area must be cleared of trash and debris and an Environmental Site Assessment (ESA) Phase I must be conducted. The developer must follow any recommendations for site cleaning or follow up testing. A copy of such report is to be provided to this Department.

4. Park is to be dedicated to the City of San Antonio, with all improvements completed, by December 31, 2007.

- This development will need to comply with tree preservation ordinance #85262. For information about these requirements you can contact Tree Preservation at 207-8265.
- It will be expected that you will plat all of the property depicted in your Master Development Plan (MDP), to include: floodplains, drainage areas and open space.
- I would encourage you to work closely with the school district, so that they can plan accordingly.

Please note that this action by the committee does not establish any commitment for the provision of utilities, services or zoning of any type now or in the future by the City of San Antonio. If the proposed development is not platted in phases this MDP/ UD will be invalid. Platting will have to comply with the UDC.

Mr. Briones
