Re: **Highland Estates**

MDP # 039A-06

Dear Mr. Bledsoe,

The Development Review Committee has reviewed Highland Estates Master Development Plan **M.D.P. # 039A-06**. Please find enclosed an accepted and signed copy for your files. However, please note the following conditions:

All platting shall comply with the Unified Development Code (UDC), Master Plan, Major Thoroughfare Plan, and all applicable regulations for the City of San Antonio. It will be expected that all of the property depicted in your Master Development Plan to include floodplains, drainage areas, and open space shall be platted. In addition, it is suggested to work closely with the school district, so they can plan accordingly.

Please note that this action by the committee does not establish any commitment for the provision of utilities, services or zoning of any type now or in the future by the City of San Antonio. The validity for this project shall expire within twenty-four months from the date of acceptance in accordance with UDC §35-412(h)(1).

Bexar County approves with the following conditions:

The following items shall be addressed by the developer prior to completion of the project:

- Traffic Controls shall be provided as warranted and installed according to standards of the Texas Manual on Uniform Traffic Control Devices and approved by Bexar County, Texas Department of Transportation and the City of San Antonio.
- Voluntary efforts, beyond those herein required, to mitigate traffic impacts are encouraged as a means of providing enhanced traffic and pedestrian capabilities to users of the development as well as others.
- Access points off Borgfeld Road shall be coordinated with Bexar County Infrastructure Services Department.

If you have any further questions, please contact Adam Chavarria at (210) 207-8265.

This Plan lies within the Camp Bullis 5 Mile Awareness Zone and has been reviewed by the City's Office of Military Affairs and the Camp Bullis Military Installation. The Garrison Commander has the following response. "Our concerns on compatibility with Camp Bullis will be addressed so long as the developer:

1. has appropriate documentation of a recent endangered species surveys (not older than 3 years) conducted by a professional biological consultant in accordance with U.S. Fish and Wildlife Services (USFWS) protocols showing no endangered species are present;
2. send the survey to USFWS Ecological Services Office in Austin; and
3. commits to incorporate dark sky lighting measures (such as the July 22nd, 2008 Bexar County light order or proposed City of San Antonio equivalent) into their projects."

The engineer acknowledges receiving the Case Managers email, and has agreed to the following:

1. Conduct an endangered species survey of the 184-acre tract.
2. Provide a copy of the study to USFWS Ecological Services Office.
3. Incorporate dark sky lighting measures into the project.

The City and Camp Bullis have been working on a joint effort to coordinate the Highland Estates MDP #039A-06 Master Development Plan. The project submitted is located within 5 miles of Camp Bullis and the City has communicated with the Camp Bullis Installation regarding the proposed development.

Based on Camp Bullis's response letter:

1. The City can only recommend that the applicant coordinate with U.S. Fish and Wildlife by contacting Allison Arnold at (allison_arnold@fws.gov or 512-490-0057 ext. 242)
2. The City can only recommend that the applicant coordinate with Camp Bullis by contacting Jim Cannizzo at (James.cannizzo@us.army.mil or 295-9830)
3. The City is working to implement a Dark Sky ordinance. However, at the present time the City recommends that the applicant contact Andrew Winter at Bexar County (awinter@bexar.org or 335-6487) to ensure that the applicant follows the Dark Sky ordinance as adopted by Bexar County.

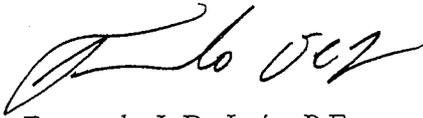

At this time, the City is providing this information as a recommendation and will not place holds on the plans and plats associated with this recommendation.

Please note that this action by the committee does not establish any commitment for the provision of utilities, services or zoning of any type now or in the future by the City of San Antonio. The validity for this project shall expire within twenty-four months from the date of acceptance in accordance with UDC §35-412(h)(1).

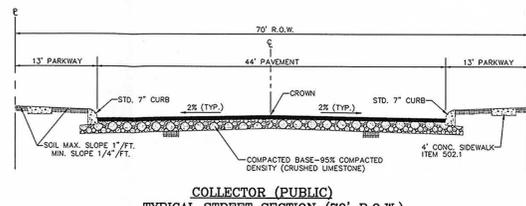

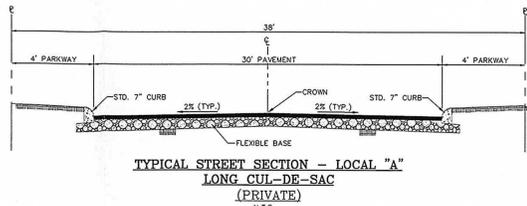

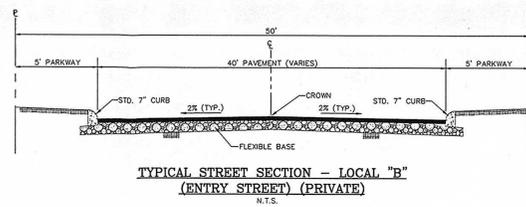

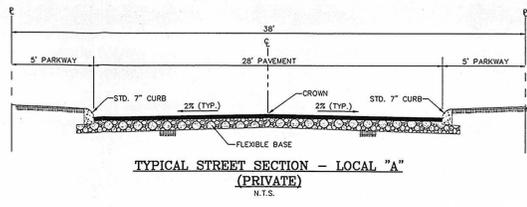

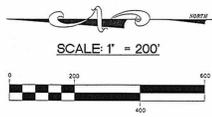

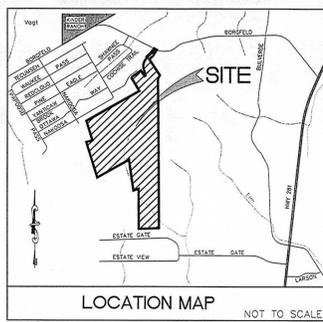

This Master Development Plan is associated with Dym Tract Master Development Plan # 039-06.

Should you need further assistance please contact Luz M. Gonzales at (210) 207-7898.

Sincerely,
