Jordan,

Thank you for submittal and request. I will send this to all the appropriate parties for consideration and posting.

Once again, thank you,

Dennis Attard

Chief Sign Inspector

Subject: Sign Code Amendment

Hello Dennis,

I have reviewed the draft of the 3/1/16 Sign Code and would like to request an amendment, specifically to Sec 28.122 with reference to Roof Signs. We would like to place signs on roofs as "off-premise" signs, though these signs are not viewable from the ground level. The signs are positioned on a horizontal plane above the roof to advertise to airline passengers flying above. Because the signs are not viewed by those viewing their storefront, we feel that this type of rooftop sign should allow for off-premise advertising, as no viewer from the air would associate the advertising with the building it rests atop. We would love to discuss the possibility of this change with you in more detail if you are willing.

Thank you in advance for your consideration.

Best,

Jordan Tannenbaum
