Analysis of Changes – 2026 NEC

Date / Time

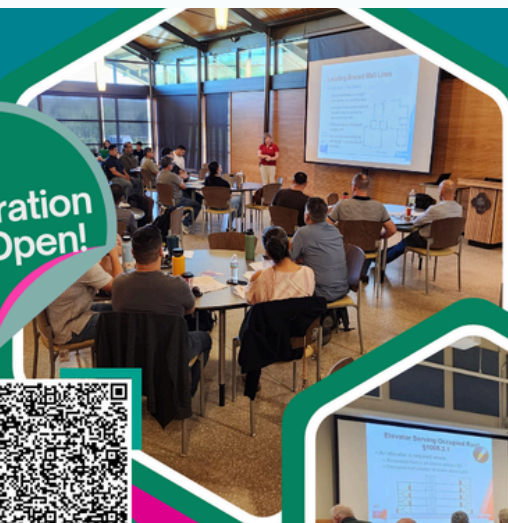

March 25-26, 2026

Start at 8:30 am

Location

Wheatley Heights
Sports Complex

200 Noblewood Dr.
San Antonio, TX 78220

ANALYSIS OF CHANGES - NEC 2026

The 2026 National Electrical Code® (NEC) introduces significant revisions that will directly impact installations, inspections, and plan review.

This one-day, high-impact course provides a structured, practical analysis of the most important Code changes, with a strong real-world, boots-on-the-ground focus. Designed for inspectors, electricians, engineers, and maintenance and safety personnel, this course goes beyond simply identifying revisions or reviewing slides. Each change is explained in context — what changed, why it changed, and how it will be applied in the field.

KEY TOPICS:

- Working Space & Dedicated Equipment Space Requirements (110.26)
- GFCI Expansion & Application Changes
- Surge Protection Requirements (SPD updates)
- Service Equipment & Disconnect Revisions
- Load Calculations & Feeder Changes
- Energy Storage & Emerging Technologies
- Revised Definitions & Article Reorganization
- Changes Impacting Inspections & Enforcement
- Grounding & Bonding Updates Affecting Multiple Articles
- Hazardous Location & Industrial Revisions (where applicable)

REGISTRATION:

Deadline: March 16, 2026

Fee: \$150

Course Length: 6 hours (0.6 CEUs)

CANCELLATION POLICY:

Cancellations requested on or before March 16, 2026 will receive a full refund.

Cancellations after March 16, 2026 are subject to a \$50 fee.
