SUBJECT: Special Inspector Certification Extension (IB-132) - COVID-19 Pandemic
DATE: June 3, 2020

As you are aware, the COVID-19 pandemic of 2020 has caused us to make several changes in our department processes and procedures. We understand this has happened to many businesses across the nation. We also understand that some businesses due to the very nature of their business had to temporarily close their doors to maintain compliance with their local and state emergency declarations. Over the last two months we've been in close contact with ICC requesting the latest information regarding their test centers and have been monitoring their closures very closely. With that said and after careful review, the Department has decided to grant an extension to the Special Inspector Certification requirement deadline. This approval will extend the deadline from August 1, 2020 to December 31, 2020.

Please feel free to review Information Bulletin 132 for additional information or contact Chief Building Inspector Jason Gray. We plan on immediately updating the Special Inspector Certification requirement documents that reflects the new deadline of December 31st, 2020.

Prior to scheduling an exam and visiting a test center, please be sure to visit their website for instructions and guidelines for testing during COVID-19.
