*While in your browser of choice, press CRTL+SHIFT+DELETE, and then one of the windows pictured below will appear depending on which browser you are using.*

Keep in mind you may want to exclude some information such as passwords from being cleared. You can uncheck passwords or other fields as needed.

Once you've decided to clear information select "Clear browsing data", "Delete", or "Clear Now".
If you are using Firefox you may need to change the time range to clear, or click the details button to show more options.

Google Chrome browser   *Internet Explorer browser*   *Mozilla Firefox*
