Purpose:

As a customer service initiative, the Development Services Department (DSD) created this revised Information Bulletin (IB) 516 on Preliminary Development Plan Review (PDPR). This IB has been updated to revise contact information.

This meeting offers opportunities for the owner and/or owner's agent(s) to meet with DSD staff to discuss future development projects. These meetings will assist the owner and/or design team to identify items that need to be addressed or modified before the development plans are submitted to the City for review. It is recommended that the applicant provide at the meeting a site plan, conceptual elevations, photographs, survey, and any previous development history such as MDP, PUD, Plats, Rights Determination, etc. Please let us know: 1. If this project is receiving incentives and the type of incentive. 2. If this property was previously owned by the city and subject to a contract as a result of the purchase. This information will ensure staff is aware of your development needs and will provide you with the most accurate information in relation to your development.
